01 PROFILE

Tech Lead and full stack developer with over 15 years of experience: from systems technician to leading a team of 8 developers. I work across every layer: data, APIs, UI, deployments and CI/CD.

02 EXPERIENCE

Tech Leader · Muay Tax Group `CURRENT` — Jan 2025 – present

Valencia · Full-time · On-site

- Technical leadership of a team of 8 full stack developers.
- Development of its tax management platform for e-commerce and marketplace sellers such as Amazon.
- Full stack development and DevOps: Docker, CI/CD and deployments.

Python/Django · Vue · PostgreSQL · Bootstrap · Docker · Git · CI/CD

Full Stack Developer · Freelance — Nov 2022 – Dec 2024

Valencia · Main client: Muaytax

- Full stack development of the Muaytax tax platform.

Python/Django · Vue · PostgreSQL · Bootstrap · Docker · Git · CI/CD

Full Stack Developer · PFS Group — Nov 2018 – Nov 2021

Valencian Community · Full-time

- Frontend with Angular and TypeScript within the MEAN stack.
- Backend with Node (REST APIs with LoopBack 4) and Java.
- SQL and NoSQL databases (PostgreSQL, Oracle, MySQL, MongoDB) and ETL migrations with Talend.

Angular · TypeScript · Node · Java · MongoDB · Talend · UiPath · Docker · Git

RPA & .NET Developer · DXC Technology — Dec 2017 – Nov 2018

- Process automation with UiPath Studio and Orchestrator, and .NET development with VB.NET and C#.

Java Developer · ODEC `INTERNSHIP · HIGHER VET` — Mar – Jun 2011

- Java and SQL (Oracle) development and quality assurance of a hospital application for the Balearic Islands government.

IT Technician · SERMICRO `INTERNSHIP · INTERMEDIATE VET` — Mar – Jun 2009

- Systems technician: software installation and hardware repair.

03 PROJECTS

Muay Tax platform `FINALIST · MARKETPLACES AWARDS 2025`

Tax management for e-commerce and marketplace sellers. muaytax.com

Págame, moroso `live side project`

Witty debt reminders for WhatsApp, guides and an interest calculator. Astro and Cloudflare. pagamemoroso.com

MASGA `Make Anime Subtitles Great Again · side project in development`

Desktop app that gives each character their own subtitle color and font, like classic fansubs. Python, pyannote and WhisperX.
